Course Description:
This is a beginning level course designed to offer an introduction to the classic Pilates matwork exercises. The acquisition and understanding of these exercises, their goals, and intent, will be presented through activity, lecture, and observation, and will be evaluated through participation, physical performance and written examination.

Pilates is a method of exercise and physical movement designed to stretch, strengthen and tone, and balance the body. Strength and flexibility, particularly of the abdomen and back muscles, coordination, both muscular and mental, and correct spinal alignment and pelvic positioning are all are key components of the Pilates method. Pilates teaches balance and control of the body, and that capacity spills over into the areas of one's life.

Course Objectives:
1. To optimize health and body awareness, core and back strength, flexibility, lengthened muscles, increased energy and overall conditioning of the body and mind.
2. To increase familiarity of one's own anatomy.
3. To introduce students to fundamentals of movement essential to the understanding and proper execution of the exercises.
4. For each student to achieve progression through the Pilates mat series based on:
   a. familiarity with the basic terminology and order of the exercises
   b. basic knowledge and awareness of proper form and body positioning
   c. transitioning from the basic mat with modifications, to the more intermediate matwork
   d. ultimately, performing the exercises by memory, with clean form and flowing transitions
5. To be able to begin to translate proper body mechanics gained from Pilates exercises in everyday movements.

Course Content:
• brief history of Joseph Pilates and the Pilates method
• basic, intermediate and selected advanced mat exercises
• modifications and variations of exercises
Attendance Policy:

The attendance policy for LPAP courses that meet twice a week will be as follows:
Students are expected to attend all class sessions and to actively participate while in attendance. During the course of the semester, students are allowed two “free” absences. Should a student miss an additional class(es) she/he will need to arrange to make up the missed class at a time and place that is agreed upon by both the student and the instructor. It is the responsibility of the student to initiate conversation with the instructor to discuss the make-up, and an agreement must be reached between the two within two weeks of the absence. If a student fails to make up a missed third or fourth class, his/her final grade will drop by one or two grade letters, respectively.

Please note, students will not be allowed to make up more than two classes. Five total absences, including those that were made up and no matter their circumstances, will result in a failing grade for the course.

Students may not miss more than 4 absences total – two of which can be made up:
2 free absences
only allowed to make up two classes – must schedule within two weeks of absence
3 absences no make up – drop one letter grade
4 absences no makeup – drop two letter grades
5 absences – even if made up, will result in a failing grade

** You may receive credit for classroom observation and may be asked to do additional assignments if you sustain an injury which would prevent safe participation. Notes must be taken during observation and turned in at the end of class - NO TEXTING will be permitted

Make up options (MAKEUPS COULD TAKE LONGER THAN TAKING THE ACTUAL CLASS):
• one hour of observation and notes in an actual Pilates studio (Pilates Concepts of Houston 3100 Richmond Ave. #200) – day and time to be determined by student and instructor
• attendance of another Pilates' class
