Brazos Bend State Park is teeming with wildlife! The landscape is flat, so this is an easy going nature hike. Enjoy taking a walk and seeing the wildlife! Trip registration covers lunch, transportation, and associated recreation fees. This trip is open to participants of all skill levels.

Here's an excerpt from the park's website detailing the wildlife present:

“The Horseshoe Lake area trails are more forested with less wetland habitat. The Brazos River is best viewed from the Red Buckeye Trail. Birdwatching is excellent throughout the park. Bring your binoculars. 40 Acre, Pilant and Elm lakes are the best areas to view wading birds and waterfowl, with a mix of songbirds and sparrows. Raptors can be viewed anywhere. Hale Lake area is more suitable for forest and songbirds. The Prairie Trails are good for sparrows and other upland birds. Wildflowers can be found throughout the park and are very diverse according to habitat but the best variety can be found on the prairies.”
