Join ROPE as we head out to the southern end of the biologically diverse Big Thicket National Preserve for some overnight camping and day canoeing. The Big Thicket area is known as the biological crossroads of North America since more species of plants and animals occur in this area than any similar sized area of North America. At Martin Dies SP we can wander on or off land through cyrus and cedar keeping an eye out for waterfowl, turtles, and perhaps even an alligator. Friday night we will grab a front country dinner before settling in for an evening campfire. Saturday and Sunday will all be camp meals and outdoor recreation. This trip is open to participants of all skill levels. Trip registration includes transportation, trail fees, trail equipment, and associated recreational fees.
